INFORMATION DISCLOSURE STATEMENT

Sir:

This statement is made in compliance with 37 C.F.R. 1.56, 1.97 and 1.98. Applicants enclose a Form PTO-1449 (one page) listing publications known to applicants that may be relevant to this application. This Statement is being filed within three months of filing the application.

Publications AA, AL-AN, AR and AS were cited in the specification. AA and AL-AN disclose other A_{2a} receptor antagonists, as does publication AV, while AR and AS relate to preparation of the compounds. Publications AT and AU disclose test procedures referred to in the specification: they replace the incorrect reference to the *Brain Research* publication cited on page 51, line 12 (the two references were apparently inadvertently combined in the text).

Copies of the publications are attached.
